STAR FOUNDATION

The Southampton Township Academic Resources Foundation (STAR) is a private, independent, non-profit corporation consisting of Southampton Township residents that was created in 1999.

It is the mission of the STAR Foundation to enhance the quality of education and educational opportunities for the students of the Southampton Township School District. This is accomplished by attracting and allocating financial gifts for the funding of innovative program and projects.

Funding for mini-grants, collaborative grants, and major grants provided by STAR is used to enhance and enrich the educational programs of the school district that are beyond those that can be funded via the school district's budget. To date, the STAR Foundation has awarded over \$360,000 in grants to Southampton schools.

All proceeds of this event will go directly to the STAR Foundation and in effect directly to the children of Southampton Township Schools in the form of grants.
